Department of Computer Science
CM30082 Individual Project
Feedback on Project Proposal

Student

Ac. Year

Date

	1	2:1	2:2	3rd	Fail
Understanding of the Problem Is the project idea well understood? Have other areas of knowledge and sources of expertise been identified? Is the proposal well focused? Are the requirements identified?					
Background Reading Has appropriate initial background reading informed the proposal?					
Referencing and Citations Have all external references and sources been appropriately cited and referenced? Is it the case that no inappropriate sources have been used?					
Planning Does the project plan include realistic estimates of effort, appropriate decomposition of tasks and measurable way-points? Have alternative end-points been considered and identified?					
Consideration of Impact Have the implications of the successful completion of the project on the potential users and on the related research community been considered?
